Education

- **International Institute of Information Technology, Hyderabad** **Hyderabad, India**
MS by Research in Computer Science and Engineering | CGPA: 8.7/10 2019 – 2021
 - **University Institute of Engineering and Technology, Panjab University** **Chandigarh, India**
BTech in Computer Science and Engineering | CGPA: 8.4/10 2015 – 2019
 - **Spring Dale Senior School** **Amritsar, India**
Senior Secondary Education 2015
 - **Saint Francis School** **Amritsar, India**
Secondary Education 2013
-

Work Experience

- **Meta/Facebook AI Research - AI Resident** **California, U.S.**
My research is currently focused on designing intelligent systems having joint understanding of vision and language modalities. Nov 2021 – Present
 - **Verisk AI - Research Intern - AI** **Hyderabad, India**
I worked on joint language and vision understanding of multimodal content and semantic understanding of natural language documents. May 2021 – Oct 2021
 - **MSB Docs - Software Developer Intern** **Chandigarh, India**
I improved the existing e-signing application by adding new features that track changes made to the document and allows multiple documents to be signed at once. Jan 2019 – June 2019
 - **Google Summer of Code - Australian Open Source Software Innovation and Education** **Remote**
I developed an application that allows users to report calamities on google maps so that nearby users can view, share, and communicate with the people involved in the crisis. Apr 2018 – Sept 2018
 - **Design Innovation Center, UIET - Research Intern** **Chandigarh, India**
I worked on the task of detecting hate speech using natural language processing. Jul 2017 – Dec 2017
-

Publications

1. Vivek Kumar, **Rishabh Maheshwary**, Vikram Pudi. Practice Makes a Solver Perfect: Data Augmentation methods for Math Word Problem Solvers. In the *Proceedings of North American Chapter of the Association for Computational Linguistics (NAACL 2022)*, Seattle, Washington.
2. **Rishabh Maheshwary***, Saket Maheshwary*, Vikram Pudi. A Strong Baseline for Query Efficient Attacks in a Black Box Setting. In the *Proceedings of Empirical Methods in Natural Language Processing (EMNLP) 2021*, Punta Cana, Dominican Republic.
3. **Rishabh Maheshwary***, Vivek Kumar*, Vikram Pudi. Adversarial Examples for Evaluating Math Word Problem Solvers. In the *Findings of ACL: Empirical Methods in Natural Language Processing (EMNLP) 2021*, Punta Cana, Dominican Republic.
4. **Rishabh Maheshwary**, Saket Maheshwary, Vikram Pudi. Generating Natural Language Attacks in a Hard Label Black Box Setting. In the *Proceedings of Association for the Advancement of Artificial Intelligence (AAAI) 2021*, Vancouver, Canada.
5. **Rishabh Maheshwary**, Saket Maheshwary, Vikram Pudi. A Context Aware Approach for Generating Natural Language Attacks. In the *Proceedings of Association for the Advancement of Artificial Intelligence (AAAI) 2021*, Vancouver, Canada.

* Equal Contribution

Major Projects

- **Information Extraction from Form like Documents** 2021
The aim is to design an intelligent reading system that is expected to respond to ad-hoc requests for information, expressed in natural language questions by human users.
 - **Generating Adversarial Attacks on Natural Language Processing Models** 2019
The aim is to attack text classification, entailment, question answering and language modelling systems.
 - **MultiHop Question Answering** 2019
The aim is to answer questions which require reasoning over multiple supporting documents.
 - **Deep Learning for detecting Hate Speech Tweets** 2018
The aim is to identify abusive language, flag offensive content using natural language processing.
-

Awards and Achievements

- **Google Summer of Code** and **Google CodeIn** mentor. 2018
 - Ranked *1st* out of 100+ teams in **CODETRIX** (National level coding contest). 2017
 - Ranked *3rd* out of 100+ teams in **CODE-IT** (National level coding contest). 2016
-

Programming Languages and Technologies

- **Programming Languages:** Python, C++, C
- **Tools and Technologies:** Scikit-learn, Pandas, NumPy, PyTorch, SpaCy, Shell, Git
